Stop Work Order for MC-2016-62-01a

Peter Brinton <peterbrinton@utah.gov>

Fri, Aug 26, 2016 at 11:25 AM

To: Aaron Dennison <dennisontransporting@yahoo.com>

Cc: Dana Dean <danadean@utah.gov>, Paul Baker <paulbaker@utah.gov>

Hi Aaron,

As requested, See the forwarded email below that Dana sent to you after the stop work conference on August 1, 2016 with a list of 4 specific requirements. Next Monday, August 29, 2016 is the due date.

We understand you're having a rough time right now, and we will do what we can. We will also need some things from you. Please immediately call either Vickie Southwick (801-538-5304) or Dana Dean to set up an informal conference to discuss your options and appeal the fine amount. Vickie (Dana's secretary) can help you set up an appointment.

Peter

Hi Aaron,

After speaking with you, Peter and Paul, I am making the following order:

1. MC-2016-62-01a is still in effect and must be abated as per Peter's requirements. Your rights to appeal MC-2016-62-01a are also still in effect.
2. Beginning upon receipt of this email until Close of Business on August 15, 2016 you may operate to perform reclamation work in any area, and to mine rock in the areas that have already been cleared of brush - see attached photo.
3. By Close of Business on August 15, 2015 you must deliver to the Division all required updates and amendments to your NOI to include the excess disturbed and planned future disturbance areas - Peter will work with you to inform you of exactly what is needed.
4. As part of the permit updates include a map and Notarized letter from the landowner claiming all non-mining disturbance for fences and clearing so that we can differentiate it from mining activity. If mining will occur, the purpose for clearing does not matter and it will be considered mining disturbance.

If for some reason you are unable to complete the permitting requirements by August 15, please let us know ahead of time and we will assess whether further time may be permitted.

Please let us know if you have any questions.

Thank you,
Dana
